

Digital Camera Battery for Canon

This high-performance lithium-ion battery is designed for Canon digital cameras. It features 3.7V voltage and 1000mAh capacity for extended shooting.

Product Overview

High-Performance Power Solution

This high-performance lithium-ion battery is engineered specifically for digital cameras, ensuring reliable power for extended shooting sessions. With a compact and lightweight design, it offers excellent portability for photographers on the move. Built for consistency, this battery provides the energy stability required for professional and hobbyist use alike.

Technical Specifications

Battery Chemistry

Li-ion

Voltage

3.7 V

Capacity

1000 mAh

Usage & Compatibility

Compatibility & Safety

- Compatible with RB6L models
- Use specified chargers only
