

Digital Crane Scale with LED Display

This digital crane scale provides precise weight measurements for heavy lifting applications. It features a bright LED display, overload safety up to 300%, and a remote control for convenient operation.

Product Overview

High Precision Crane Scale

This high-precision crane scale is engineered for heavy-duty lifting and weighing applications in industrial, construction, and agricultural environments. Featuring a rugged metal enclosure, it ensures durability and protection in demanding conditions. The system includes a bright LED display for clear visibility and a remote control for convenient, safe operation from a distance.

Technical Specifications

Capacity Range	1t to 10t
Display Type	5-digit LED
Digit Size	30 mm
Viewing Distance	25 m
Overload Safety	300 %

Operational Features

Key Operational Features

- Integrative load cell design
- Linear calibration for improved precision
- Low power consumption indication
- Overload warning system
- Rugged construction

Battery Life per Charge	60 hours
Remote Control Range	6 m
