

Digital Display Humidifier

This humidifier is designed to improve air quality by adding moisture to the environment. It features a transparent water tank, a digital display, and touch-sensitive controls.

Product Overview

Modern Digital Humidifier

This modern humidifier is designed to enhance indoor air quality by efficiently adding moisture to your environment. Featuring a sleek, minimalist design, it integrates seamlessly into home or office spaces while operating quietly. With an intuitive digital display and touch-sensitive controls, users can easily monitor and adjust humidity levels for a more comfortable and healthy atmosphere.

Technical Specifications

Power Consumption	45 W
Water Tank Capacity	2.5 L
Humidification Rate	300 ml/h
Recommended Use Area	28 m ²

Features

Key Features

- Digital display for humidity monitoring
- Touch-sensitive control interface
- Transparent water tank for level visibility
- Quiet operation
- Minimalist design
