Product Overview

Professional Grade Pressure Cooking

This digital electric pressure cooker is designed for high-efficiency commercial and home kitchen use, featuring advanced NTC pressure control and IMD touch interfaces. With a robust 4.0mm non-stick inner pot and a variable pressure system, it ensures optimal flavor extraction and nutritional preservation across a wide variety of ingredients. The unit supports over 10 distinct cooking menus, offering precise temperature management and rapid heating capabilities to streamline kitchen workflows.

Technical Specifications

Working Pressure

112 Kpa

Max Pressure

Housing Material	Chromium plated iron
Inner Pot Thickness	4 mm
Inner Pot Coating	Non-stick

Control & Interface

Cooking Modes

- Over 10 preset menus
- Variable pressure switching
- Precise temperature control
- Add ingredients during cooking

Control Interface	IMD Touch Control
