Overview

Precision Measurement Tool

This Digital Laser Distance Meter is designed for professional accuracy, offering measurement capabilities up to 100 meters. Featuring an integrated digital level and angle sensor, it supports complex calculations including area, volume, and Pythagorean functions. With 99 data set storage and a backlit LCD display, it is a versatile tool for construction, design, and engineering applications.

Technical Specifications

Measurement Range	40M, 60M, 70M, 80M, 100M
Measurement Accuracy	2 mm
Laser Class	2
Wavelength	635 nm
Rated Power	<1mw

Features

Measurement Functions

- Distance
- Area (Triangular, Square, Trapezoidal)
- Volume
- Pythagorean
- Addition & Subtraction
- Digital Level & Angle Sensing

Supported Units

Inches • Feet • Meters

Data Storage	99 records
--------------	------------

Package Contents

Included Accessories

- Carrying & Storage Pouch
- Belt Loop
- Lanyard
- 2x AAA Batteries

Warranty

Warranty Period

2 Years
