Overview

Precision Weighing Solution

This digital LED weighing scale is designed for versatile use in warehouses, shops, and industrial environments. It features a robust ABS plastic housing with a removable stainless steel platter for easy cleaning and maintenance. With a high-resolution single-point load cell and an intuitive LED display, it provides reliable, accurate measurements for a wide range of commercial applications.

Technical Specifications

Power Supply

- 12VDC 500mA adapter
- 6V 4Ah lead-acid rechargeable battery

System Resolution	1/7,500
Supported Units	kg, lb, g, oz, lb:oz
Operating Temperature	-10°C to 40°C

Construction & Design

Setup Features

Leveling bubble • Adjustable feet

Housing Material	ABS Plastic
Platter	Removable stainless steel
Display	7-segment LED, 17mm high

Performance Metrics

Model Capacity Table

Model	Capacity
EHW-EM-3	3kg x 0.5g / 6lb x 0.001lb
EHW-EM-6	6kg x 1g / 12lb x 0.002lb
EHW-EM-15	15kg x 2g / 30lb x 0.005lb
