

Digital Loop TV Antenna for HDTVs

This digital loop TV antenna is designed to receive over-the-air digital TV signals. It is compatible with HDTVs and digital TV receivers, providing access to local channels in high definition.

Overview

High-Performance Digital Antenna

This Digital Loop TV Antenna is designed to provide clear and reliable reception for HDTVs. Featuring a sleek, streamlined design, it includes a scientifically tuned gain button for precise signal adjustment and retractable dipoles for optimal VHF and FM reception. It is an ideal solution for accessing free local broadcast channels in Full HD.

Key Features

Special Features

- Sleek and streamlined design
- Blue power-on indicator
- Scientifically tuned gain button
- Retractable dipoles for VHF/FM
- Swiveling large loop for UHF
