## ADDITIONAL IMAGES

## Product Overview

### Advanced Ozone Purification Technology

This digital ozone purifier is a versatile solution designed to enhance hygiene and safety in your living environment. By utilizing ozone technology, the device effectively neutralizes bacteria, viruses, and odors in air, water, and on surfaces. It serves a wide range of applications, from food detoxification and personal health care to maintaining sanitary conditions for household items and pet areas.

## Technical Specifications

Model Number	BT-3188
Display	Digital

## Core Functions

### Primary Applications

- Air purification
- Food detoxification
- Water purification
- Personal health care
- Odor removal

Sanitization Capabilities	Virus elimination, Bacteria removal, Odor neutralization, Impurity breakdown
---------------------------	--

## Usage Scenarios

### Usage Scenarios

Category	Application
Kitchen	Food and water purification
Household	Air purification and odor removal
Personal Care	Skin care and oral hygiene
Pet Care	Odor removal and parasite prevention
Baby Care	Sanitizing toys and items
