Technical Specifications

Maximum Weight Capacity	150 kg
Precision (d)	100 g
Sensor Type	High precision strain gauge sensor
Power Source	1 x CR2032 lithium battery

Design & Dimensions

Scale Size	230 x 140 x 18 mm
Display Size	29 x 80 mm
Platform Material	5mm thickness safety glass

Smart Features

Operational Features

- Step on & Auto off functionality
- Auto-power-off to conserve battery
- Moving display (Display In/Out)
- Low center of gravity to prevent rollover
- Fillet grinding for safety

System Indicators

Display Code	Meaning
- Lo -	Low battery indication
- oL - / Err	Overload indication

Health Monitoring

Body Mass Index (BMI)

BMI is an international standard used to measure obesity and health levels. Categories include Thin (<18.5), Normal (18.5-24), Overweight (24-28), and Fat (>28).
