

Digital Picture Display

This digital picture display allows users to showcase their favorite photos without the need for printing. It brings memories to life with its clear display.

Product Overview

Versatile Magnetic Solutions

This collection features a comprehensive range of magnets designed for diverse applications, from educational science experiments to industrial use. The set includes bar magnets of varying sizes, rectangular prisms, and small square magnets to suit different project requirements. With various materials and color-coded polarity indicators, these magnets provide a reliable and visual way to explore or utilize magnetic forces.

Physical Characteristics

Polarity Indicators

Color Coated

Available Shapes

Bar Magnets, Rectangular Prisms, Square Magnets

Applications

Recommended Applications

- Educational purposes
- Scientific experiments
- Industrial applications

Material Properties

Material Composition

Multiple materials including metallic and coated variants
