

Digital Satellite TV Receiver

This digital satellite receiver is fully compliant with DVB-S and MPEG-2 standards. It features automatic scanning for easy setup and supports multiple languages.

Product Overview

Professional Digital Satellite Receiver

This high-performance digital satellite receiver is fully compliant with DVB-S and MPEG-2 standards, offering reliable signal reception for professional broadcasting needs. It features a high-sensitivity tuner with low Eb/N0 and advanced QPSK demodulation, ensuring clear and stable picture quality. Designed for convenience, the unit supports plug-and-play installation via automatic scanning and offers extensive compatibility with both C and Ku bands.

Technical Specifications

Program Storage	3000 Channels
Symbol Rate	2~45 MS/S
Supported Languages	13 Languages
