

Digital Timer and Counter with 5-Digit Display

This electronic instrument functions as both a timer and a counter. It features a 0.52-inch, 5-digit numerical display for various timing and counting applications.

Product Overview

Precision Timing and Counting Solution

The JZS-5521Cx/Ax is a versatile electronic instrument designed for accurate time measurement and numerical counting tasks. It features a clear 0.52-inch, 5-digit digital display module, providing excellent visibility for industrial and technical applications. This component is engineered to integrate seamlessly into monitoring and control systems requiring precise output visualization.

Technical Specifications

| | |
|----------------------|---------------------------|
| Display Technology | Digital Numerical Display |
| Digit Capacity | 5 |
| Character Height | 0.52 inches |
| Model Identification | JZS-5521Cx/Ax |

Functionality

| | |
|-----------------|------------------|
| Core Operations | Timing, Counting |
