Overview

Precision Weighing Solution

This digital weighing scale is designed for versatile industrial and commercial applications, ranging from warehouse inventory management to retail store use. It features a durable construction with a rugged ABS plastic housing and a large, easy-to-clean stainless steel weighing platform. With high-resolution load cell technology and an easy-to-read backlit LCD display, this scale ensures accurate and reliable measurements for various weighing tasks.

Suitable Applications

Warehouse, Retail Shops, Industrial Weighing, Commercial Use

Technical Specifications

Key Performance Metrics

200000 1/n
Resolution

18.5 mm
Display Digit Height

40 °C
Max Operating Temp

Power Requirements

- 12V 500mA power adapter
- 6V 4Ah lead-acid rechargeable battery

Connectivity

RS232 Serial Port

Certifications

CE, WEEE, UL Approved Adapter

Construction

Build Materials

- Rugged ABS plastic housing
- Stainless steel weighing platform

Platform Dimensions

285mm (W) x 241.3mm (L)

Stability Features

Yes

Functions

Operation Modes

- Weighing
- Check weighing
- Parts counting

System Alerts

Overload indication, Low battery indication

Model Comparison

Model Specifications

Model	Capacity
EHX-6	6kg x 0.2g
EHX-15	15kg x 0.5g
EHX-30	30kg x 1g
EHX-10H	10kg x 0.1g
EHX-20H	20kg x 0.1g
