

# Dimmable LED Light Bulb with Standard Screw Base

This dimmable LED light bulb provides energy-efficient lighting for a variety of applications. It features a standard screw base and is compatible with most standard light fixtures.

## ADDITIONAL IMAGES

## Product Overview

### Efficient and Versatile Lighting Solution

This dimmable LED light bulb is designed for energy efficiency and long-lasting performance in both residential and commercial environments. Featuring a standard E26 screw base, it is compatible with most standard light fixtures and is particularly suitable for downlight applications. The bulb provides a warm, inviting glow while offering significant energy savings and reduced maintenance costs compared to traditional incandescent bulbs.

## Key Performance Metrics

### Performance Highlights

**E26**

Base Type

**LED**

Technology

## Technical Specifications

Base Type	Standard E26 Screw Base
Dimmable	Yes
Light Output	Warm White
Recommended Application	Suitable for downlights

## Durability & Safety

### Build Quality

- Breakage resistant construction
- Long-lasting performance
- Designed for durability

### Temperature Resistance

High temperature resistant

### Environmental Compliance

Mercury-free, Hazardous substance free, Energy Efficient

## Usage Scenarios

### Usage Areas

Residential • Commercial • Indoor Lighting
