

Dimmable LED Light Bulb

This dimmable LED bulb is designed for efficient and long-lasting illumination. It features a standard screw base and a frosted diffuser for even light distribution, reducing glare and creating a comfortable ambiance.

Overview

Efficient Dimmable Illumination

This dimmable LED bulb is designed to provide efficient and long-lasting illumination for various environments. Featuring a standard screw base, it serves as a direct replacement for traditional incandescent or halogen bulbs. The frosted diffuser ensures even light distribution, reducing glare and creating a comfortable ambiance for residential, commercial, and industrial applications.

Technical Specifications

Model Specifications

Model	Power (W)	Dimensions (mm)	Lumen Output (lm)
A60-6W	6	60 x 108	600
A60-8W	8	60 x 108	800
A60-12W	12	60 x 112	1200

Electrical Properties

176 V

Min Voltage

264 V

Max Voltage

0.5 e

Power Factor (PF)

Optical Performance

Color Rendering Index (RA)	80
Color Temperature (CCT)	2700K - 6500K
