

DIN 1142 Wire Rope Clip

This wire rope clip conforms to DIN 1142 standards. Featuring a yellow chromated finish, it provides corrosion resistance and secure grip for wire ropes in rigging and lifting applications.

Product Overview

DIN 1142 Wire Rope Clip

The DIN 1142 wire rope clip is a critical component engineered for securing wire ropes and cables in demanding industrial environments. Featuring a robust construction with a yellow chromated finish, this clip provides superior corrosion resistance and long-term durability. Designed to meet stringent DIN 1142 standards, it ensures reliable and safe connections for rigging, lifting, and heavy-duty load-bearing applications.

Technical Details

Standard	DIN 1142
Surface Finish	Yellow Chromated

Features

Key Features	Corrosion Resistant, High Durability, Load-Bearing, Secure Grip
--------------	---

Applications

Typical Applications

- Rigging
- Lifting Operations
- Cable Securing
- Load-Bearing Assemblies
