

DIN Rising Stem Gate Valve DN 40-700

This DIN rising stem gate valve is designed for reliable shutoff in a variety of industrial applications. Its rising stem provides a visual indication of valve position, while the gate design ensures tight sealing.

Overview

DIN Rising Stem Gate Valve

This DIN rising stem gate valve is engineered for reliable shutoff in demanding industrial applications. The rising stem design provides a clear, immediate visual indication of the valve's open or closed position, enhancing operational safety. Built to comply with rigorous DIN standards, this valve ensures seamless compatibility and interchangeability within your existing piping infrastructure.
