

Direct Drive 24L Air Compressor

This direct drive air compressor has a 24L tank capacity and a maximum pressure of 8Bar (115Psi). It is powered by a 1.5KW motor, delivering an air capacity of 198L/min.

Overview

High-Performance Direct Drive Compressor

The FL-24 direct-drive air compressor is engineered for efficiency, featuring high rotational speeds and a compact, lightweight design. It provides rapid air delivery while maintaining energy conservation, making it a durable solution for various pneumatic applications. Its portable build ensures versatility for both professional and DIY environments.
