

Disc Brake Axle for Heavy-Duty Trucks and Trailers

This disc brake axle is designed for heavy-duty applications. It provides superior stopping power and durability for commercial vehicles, trailers, and other demanding applications.

Product Overview

High-Performance Disc Brake Axle

This heavy-duty disc brake axle is engineered for demanding commercial applications, providing superior stopping power and long-term reliability. It features a robust construction designed to withstand extreme conditions, ensuring optimal safety and performance for trucks and trailers. The design incorporates optimized brake caliper placement to facilitate efficient heat dissipation, protecting the braking system during heavy use.

Technical Specifications

Key Features

- Robust construction for durability
- Optimized brake caliper placement
- Efficient heat dissipation system
- Precision-engineered hubs

Application

Heavy-Duty Trucks, Trailers, Commercial Vehicles

Performance Metrics

Performance Highlights

1 Superior

Stopping Power
