

Dishwasher Front Panel

This is a front panel designed for freestanding dishwashers. It features a control panel area and a stainless steel finish.

Product Overview

Advanced Cleaning and Drying Technology

This high-performance dishwasher features a professional-grade stainless steel tub designed for durability and easy cleaning. It utilizes a 3.0 enhanced drying system that combines condensation, air-dry, and heated air-dry technologies to ensure dishes and the machine interior remain completely dry. With 360-degree high-temperature washing and a 48-hour fresh and dry storage cycle, this appliance provides a comprehensive solution for sanitation and convenience.
