

Disposable Isolation Apron with Long Sleeves

This disposable isolation apron provides a protective barrier. It features long sleeves with elastic cuffs, a tie-back closure, and a lightweight, fluid-resistant material, intended for single-use applications.

Product Overview

Professional Isolation Protection

This disposable isolation apron is engineered to provide a reliable protective barrier in environments where contamination control is critical. Featuring long sleeves with secure elastic cuffs and a convenient tie-back closure, it ensures an adjustable and comfortable fit for various users. The lightweight, fluid-resistant material is specifically designed for single-use applications, offering both safety and practicality for professional settings.
