

Disposable Medical Bouffant Hat

This disposable bouffant hat prevents liquids and particles from contacting the head, hair, and ears. Constructed from polypropylene, it offers leakage and static resistance.

Product Overview

Professional Protection & Hygiene

This disposable medical bouffant hat is designed to provide essential protection in sensitive environments. Constructed from high-quality, breathable polypropylene, it effectively prevents contact with contagious liquids and particles. The lightweight design ensures comfort during extended wear, making it an ideal solution for maintaining strict hygiene standards in hospitals, clinics, and laboratories.
