

Disposable Vacuum Cleaner Bag

A disposable vacuum cleaner bag, made of paper or synthetic material, collects dust and debris during vacuuming. It is sealed to prevent leakage and requires replacement when full.

Product Overview

High-Efficiency Disposable Vacuum Bag

This disposable vacuum cleaner bag is engineered to provide superior dust and debris containment during operation. Constructed from high-quality paper or synthetic materials, it features a robust collar design for a secure and leak-proof fit with the vacuum intake. Designed for convenience and hygiene, this single-use solution ensures optimal suction performance while simplifying the maintenance of your cleaning equipment.

Technical Specifications

Usage Frequency

Single-use • Disposable

Key Design Features

- Cardboard or plastic collar
- Leak-proof seal
- Secure intake attachment

Material Composition

Paper, Synthetic Material
