

Disposable Vacuum Cleaner Bag

Disposable vacuum cleaner bag made of paper-like material. It has a cardboard or plastic attachment point for connecting to a vacuum cleaner.

Product Overview

High-Efficiency Disposable Vacuum Bag

This disposable vacuum cleaner bag is designed for effective dust collection and easy maintenance in professional cleaning environments. Crafted from durable, paper-based filtration material, it ensures consistent airflow while capturing particulate matter. The integrated connection plate provides a secure, leak-free fit for standard vacuum cleaning units, making it an ideal consumable for heavy-duty cleaning equipment.

Technical Specifications

Material Composition	High-filtration paper composite
Shape	Trapezoidal prism
Key Design Elements	Disposable, Rigid mounting plate, Central intake hole

Compatibility

Mounting Method	Cardboard/Plastic attachment flange
