

# Double Basket Commercial Hood Dishwasher

This commercial dishwasher features a double basket design for increased cleaning volume and high efficiency. The unique main wash tank design ensures high durability and prolongs the dishwasher's service life.

## Overview

### High-Efficiency Commercial Dishwashing

This high-capacity hood-type dishwasher is engineered for demanding foodservice environments where speed and hygiene are paramount. Featuring a robust double-basket configuration, it maximizes throughput to keep up with high-volume operations like cafeterias and busy restaurants. Built with durable stainless steel, this unit combines powerful washing cycles with an efficient rinse system to deliver consistent, sparkling results.

## Performance Metrics

### Cleaning Capacity

**100 baskets/H**

Baskets per Hour

### Rinse Water Consumption

6 L/min

## Technical Specifications

### Model Number

PDX-1004

### Electrical Requirements

380V, 50HZ, 3PH

### Total Power

18 KW

## Dimensions

### Dimensions (L x W x H)

1270 x 830 x 1380 mm
