Product Overview

Professional Grade Dock Line

This double braided nylon dock line is engineered for superior strength and reliability in marine environments. Featuring an integrated 12-inch eye splice, it provides a secure and easy attachment point for watercraft. Its double braid construction offers excellent shock absorption, making it an ideal choice for mooring applications.

Technical Specifications

Construction	Double Braid
Material	Nylon
Eye Splice Length	12 inch

Usage Guidelines

Safety Warnings

- Do not use for overhead lifting
- Do not exceed working load limit
- Replace if there are signs of wear and tear, such as broken fibers

Performance Factors

Factor	Impact
Shock loads (stress, jerk)	Reduce working loads by up to 33%
Knots	Reduce rope strength by 40%

Key Features

Key Benefits

High Strength • Shock Absorption • Abrasion Resistant • UV Protection
