

Double Burner Stainless Steel Gas Stove

This double burner gas stove features two high-efficiency burners for rapid and even heating. Constructed from durable stainless steel, it offers corrosion resistance and easy cleaning.

Product Overview

Professional Cooking Performance

This double burner gas stove is engineered for efficiency and durability in modern kitchen environments. Constructed from high-grade stainless steel, the unit offers excellent corrosion resistance and is designed for easy maintenance. With individual control knobs for each burner, users can achieve precise flame adjustments to suit various cooking requirements while maintaining efficient gas consumption.

Technical Specifications

Number of Burners	2
Material	Stainless Steel
Control Mechanism	Individual control knobs

Key Features

Key Features

- High-efficiency burners
- Corrosion-resistant construction
- Compact space-saving design
- Precise flame control
- Easy to clean surface

Design Attributes	Modern Aesthetic, Energy Efficient, Compact
