

# Double Burner Tempered Glass Gas Cooktop

This gas cooktop features a tempered glass surface that is easy to clean. It has two burners that provide a powerful blue flame and automatic piezo ignition.

## ADDITIONAL IMAGES

## Product Overview

Sleek tempered glass top designed for durability and easy maintenance.

### High-Efficiency Cooking Solution

This double burner gas cooktop features a durable tempered glass surface that is both easy to clean and heat-resistant. Designed for modern households, it utilizes automatic Piezo ignition for reliable startup and powerful blue flame technology to reduce cooking time. Its energy-efficient design helps minimize gas consumption, making it a cost-effective solution for daily cooking needs.

## Technical Specifications

User-friendly control knobs for precise flame adjustment.

High-quality brass burner heads for consistent heat distribution.

## Technical Specifications

Feature	Specification
Panel Material	Tempered Glass
Body Material	Powder coating / Stainless steel
Burner Cap Material	Brass
Burner Size	90mm + 90mm
Glass Thickness	7mm / 8mm

## Key Features

Compact and efficient double burner layout.
