Product Overview

Versatile Double-Chamber Cooking Solution

This patented double-chamber toaster oven features a unique stacked design with 14L and 28L compartments that can operate independently or simultaneously. Equipped with a top-mounted griddle and four groups of stainless steel heating elements, it offers professional-grade versatility for baking, toasting, and BBQ functions. The unit is designed for efficiency and precision, featuring adjustable thermostats and wide-view glass doors for optimal cooking control.
