

# Double Column Horizontal Metal Bandsaw

This double column horizontal metal bandsaw is designed for high-precision metal cutting. Its robust construction and advanced hydraulic system ensure smooth and accurate cutting performance.

## ADDITIONAL IMAGES

## Product Overview

### Industrial Precision Cutting

This double column horizontal bandsaw is engineered for high-precision industrial metal cutting. Featuring a robust double-column structure and vertical lifting mechanism, it ensures exceptional stability during operation. The machine is equipped with PLC control and hydraulic variable speed settings, making it highly efficient for bulk sawing applications.

## Technical Specifications

### Performance Metrics

**3 kW**

Main Motor Power

**0.55 kW**

Oil Pump Power

**500 mm**

Max Feeding Length

### Blade Specifications

Parameter	Value
Blade Size	27 x 0.9 x 3625 mm
Blade Speed	27, 45, 69 mm/min
Blade Tension	Mechanical

**Overall Dimensions** 2150 x 1300 x 1600 mm

**Cutting Capacity** 280 x 280 mm

## Features & Configuration

### Key Features

- PLC control system
- CNC cutting capability
- Double column structure for vertical lifting
- Hydraulic controlled variable cutting speed
- Hydraulic clamping system

### Model Details

Model: TBK-4228A • Item No: 271211

### Included Accessories

Blade, Work light
