

Double Door Beverage Refrigerator

This double door beverage refrigerator is designed for commercial or home use, featuring glass doors for product visibility and adjustable shelves. It can accommodate 200 bottles of 300ml beer.

Product Overview

Professional Beverage Storage Solution

This double door beverage refrigerator features a high-performance compressor cooling system with mechanical temperature control, ensuring consistent cooling for all your drinks. Designed for both commercial environments like bars and restaurants as well as home use, it provides ample capacity to store up to 200 bottles of 300ml beer. Its ultra-quiet operation and versatile design options make it a reliable and space-efficient addition to any professional service area.
