

## Double Gang Wenge Wood Switch Cover

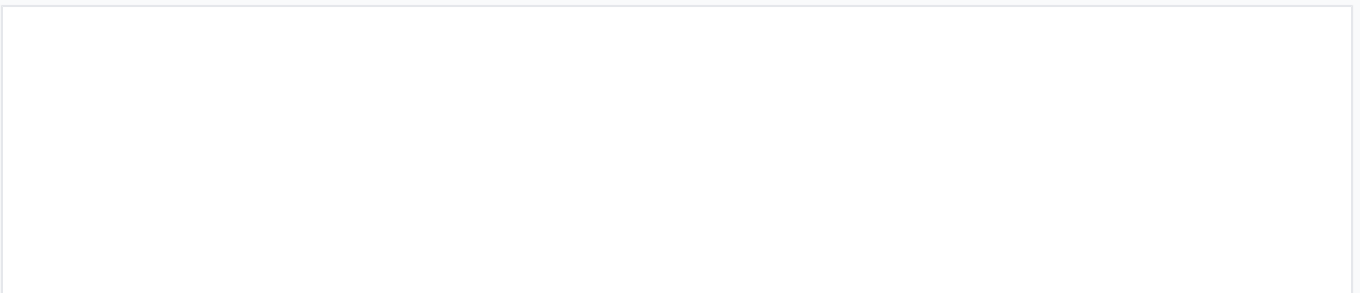

This double gang switch cover features a wenge wood finish. It is designed for electrical switches, providing a decorative and protective layer.

### ADDITIONAL IMAGES

### Overview

Elegant 2-gang switch cover featuring a natural wenge wood finish.

### Premium Real Wood Switch Solutions

This double gang switch cover is crafted from 4mm thick authentic wenge wood, offering a sophisticated and natural aesthetic for modern interiors. Part of a modular fitting system, it allows for the free combination of various mechanisms to meet specific functional requirements. The design features a high-quality finish that provides both a decorative upgrade and a protective layer for standard electrical installations.
