

# Double Head Metal Sheet Cutter Attachment

This double head metal sheet cutter attachment converts electric drills into power shears. It is designed for precise and efficient cutting of metal sheets.

## ADDITIONAL IMAGES

## Product Overview

### Versatile Metal Cutting Solution

This double-headed metal sheet cutter attachment is designed to transform your standard electric or pneumatic drill into a precise metal cutting tool. It excels at creating clean, burr-free edges on various soft metals, including steel, stainless steel, aluminum, and copper. With its robust construction and ergonomic control, it is an essential addition for professionals working in HVAC, roofing, and automotive repair.

## Compatibility & Usage

Compatible Tools	Electric Drill, Pneumatic Drill, Drill Press
Supported Materials	Sheet Steel, Stainless Steel, Aluminum, Copper

## Capabilities

### Cutting Capabilities

- Irregular shape cutting
- Fixed line cutting
- Round cutting
- Straight cutting

### Performance Features

**2 count**  
Cutting Heads

## Design

### Design Highlights

Double-Head Design • Robust Construction • Ergonomic Grip • Burr-Free Edges
