

# Double-Head Waterproof Push Button Switch

This double-head push button switch is waterproof and designed for electrical power applications. It features both green and red buttons, typically used for start and stop functions.

## ADDITIONAL IMAGES

## Product Overview

### Professional Double-Head Control Switch

This double-head waterproof push button switch is engineered for high-performance control in industrial applications. Featuring a combination of flush green and projecting red buttons, it provides intuitive start and stop control for circuits up to 660V. Designed with a robust zinc alloy and high-grade anti-flam plastic body, it offers excellent durability and reliability for distribution cabinets and power stations.

## Electrical Ratings

Rated Insulation Voltage	660 V
Conventional Heating Current	10 A
Contact Resistance	d25 <sup>h</sup> ©
Insulation Resistance	e5M <sup>h</sup> ©

## Performance Metrics

Protection Rating IP40	
Mechanical Life (Pushbutton)	1000000
Electrical Life (Pushbutton)	500000

## Technical Specifications

XDL21-EB8425

Double-headed  
Push button  
1 flush green  
Push Marked I  
1 projecting red  
Push marked O
