

Double Helix Fluorescent Light Bulb

This circular fluorescent light bulb features a double-helix design for enhanced illumination. The energy-efficient lighting solution provides bright, uniform light distribution and is suitable for various indoor applications.

Product Overview

Innovative Lighting Solution

The Double Helix Fluorescent Light Bulb is engineered for superior illumination and energy efficiency. Its unique double-helix design ensures bright, uniform light distribution, making it an ideal choice for a wide range of indoor commercial and residential applications. Designed with convenience in mind, it features a standard Edison screw base for seamless, hassle-free installation.
