Overview

Professional Double-Layer Tool Storage

This industrial-grade tool box is manufactured from environmentally friendly PP plastic with a thickened body for enhanced durability and impact resistance. Featuring a double-decker design, it maximizes internal space and allows for efficient tool classification and organization. Engineered for heavy-duty use, it offers strong load-bearing capacity and a long service life, making it an essential companion for both professional tradespeople and home maintenance.

Key Features

Integrated multi-function storage compartments on the lid for easy access to small parts.

Impact Resistance

Anti-drop • 1.5M Fall Tested • Industrial Grade • Thickened Body

Design Advantages

- Double-layer design for space optimization
- Uniform force distribution to prevent deformation
- Environmental protection PP material
- High pressure resistance
- Strong endurance and wear life

Technical Specifications

Available in four sizes ranging from 14 to 21 inches, featuring an anti-drop design tested for 1.5-meter falls.

Size Range

Size (Inch)	Dimensions (cm)
14"	37 x 19.5 x 18 cm
17"	42 x 23 x 19 cm
19"	47 x 24 x 20 cm
21"	53 x 31 x 26 cm

Material

Environmental Protection PP Plastic

Applications

Versatile storage solution suitable for automotive, electrical, carpentry, and home maintenance tasks.

Recommended Applications

Auto Repair, Carpentry, Electrical Maintenance, Plumbing, Painting, Welding Repair, Household Use

Storage Capacity

The double-layer interior allows for organized classification and maximizes storage capacity.
