

Double Layer Roof Panel Roll Forming Machine

This double layer roll forming machine produces roof panels with two different profiles in one pass. It features a robust steel frame and computerized control system for automated operation.

ADDITIONAL IMAGES

Overview

Our machines feature beautiful appearance, simple operation, reasonable price, good quality and so on.

High-Efficiency Double Layer Production

This double-decker roll forming machine is engineered to produce two distinct roof panel profiles within a single compact footprint, significantly maximizing workshop space and productivity. It features a robust steel frame for vibration-free operation and a sophisticated PLC control system for automated, high-precision manufacturing. Ideal for high-volume B2B environments, this versatile solution handles various materials including color steel, galvanized sheets, and aluminum coils.

Key Performance Metrics

Performance Highlights

12 m/min

Max Productivity

5 T

Loading Capacity

18 Rows

Max Roller Stations

1 Year

Warranty

Material Specifications

Compatible Materials

Color Steel Plate, Galvanized Sheet, Aluminum Coils

Technical Dimensions

Feeding Material Width	914 - 1250mm
Material Thickness Range	0.3 - 0.8mm
Shaft Diameter	70 - 80mm

System Components

Spare part pictures:

Roller System Details

- Material: High grade No. 45 forged steel
- Stations: 11-18 rows (customizable)
- Precision engineered for consistent profile quality

Hydraulic Cutting System

- Blade Material: Cr12Mov with quenched treatment
- Drive: Hydraulic drive integrated with PLC
- Function: Precise dimension cutting for both tiers

Control & Automation

Computer Control Cabinet

- Operation Modes: Automatic and Manual
- Programmable: Profile length and quantity settings
- Supported Languages: English, Chinese, Spanish, Russian

Hydraulic & Power

Hydraulic System Parameters

Parameter	Value
Power	4kW
Oil Type	46# Hydraulic Oil
Working Pressure	12-16Mpa (Adjustable)
Main Motor Power	5.5KW AC Motor

Uncoiler Specifications

Manual Uncoiler Specs

- Inner Diameter: 500-508mm
- Max Outer Diameter: 1250mm
- Max Steel Coil Width: 1300mm
- Working Speed: 0-15m/min adjustable
