Product Overview

Modern Double-Layer Electric Kettle

This double-layer stainless steel electric kettle is engineered for rapid heating and superior heat retention. Its insulated exterior design ensures user safety by preventing burns, while the seamless interior simplifies cleaning and prevents limescale buildup. Perfect for high-demand environments, this kettle combines a 1.7L capacity with reliable safety features like boil-dry protection and automatic shut-off.

Key Features

Core Features

- Double-layer stainless steel construction
- Automatic shut-off function
- Boil-dry protection
- Button-switch operation
- Detachable 360-degree base
