

Double-Step Feeding Zigzag Sewing Machine

This intelligent sewing machine is designed for versatile stitching applications. It features a digital display for precise control and adjustment of stitching parameters.

Overview

Precision Engineering for Versatile Stitching

The intelligent double-step feeding zigzag sewing machine is engineered for high-performance stitching applications. Featuring a digital interface for precise control, this machine enables users to fine-tune stitching parameters with ease. Its robust design and advanced feeding mechanism ensure consistent results across a wide range of fabric types, delivering durable and flexible seams for professional industrial environments.

Technical Specifications

Model Number	GG20UZNH-2B
Feeding Mechanism	Double-step feeding
Stitch Type	Zigzag

Features

Control Interface	Digital display for parameter adjustment
Key Attributes	Intelligent control, Consistent feeding, Durable seams, Versatile application

Compliance

Patent Registration	200020048340.2
