

Downdraft Induction Cooktop with Extractor

This induction cooktop features an integrated downdraft extractor fan and filter. It eliminates the need for a separate range hood, saving space in the kitchen.

ADDITIONAL IMAGES

Overview

The integrated 2-in-1 design saves space and provides a modern aesthetic for open-plan kitchens.

Integrated Downdraft Induction Cooktop

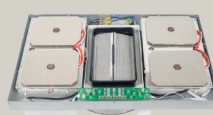

This 2-in-1 appliance combines a high-performance induction cooktop with a powerful integrated downdraft extractor, eliminating the need for a traditional range hood. Designed for modern, flexible kitchen layouts, it features four cooking zones and a central exhaust system that captures fumes directly at the source. The sleek glass surface and sensor touch controls offer a seamless aesthetic and simplified cleaning for professional-grade kitchens.

Performance

Efficiency

Provides four cooking zones for enhanced cooking efficiency.

Exhaust

Strong exhaust hood positioned in the center, evenly removing cooking fumes from each cooking area.

A strong central exhaust hood evenly removes cooking fumes from all four high-efficiency cooking zones.
