

Dozer Blade End Bit 3G8289 3G8290

This dozer end bit is suitable for bulldozers. It is manufactured with durable materials to withstand demanding operating conditions.

Product Overview

Heavy-Duty Dozer End Bits

These high-quality dozer end bits are precision-engineered for demanding construction machinery applications. Designed to withstand harsh operating conditions, they feature secure bolt hole configurations for optimal attachment and performance. Available in multiple material specifications to suit various site requirements.

Technical Specifications

Material Composition

- Boron Steel (30MnB)
- Manganese Steel (16Mn)

Customization

Multiple Colors Available • Various Specifications

Part Numbers

3G8289, 3G8290
