

Dozer End Bit 1U1545 1U1546

Dozer end bits are designed as bulldozer parts. They are engineered to be equipped with bulldozers.

Product Overview

Heavy-Duty Dozer End Bits

These high-quality end bits are essential components designed for bulldozer maintenance and operation. Engineered to withstand harsh working conditions, they provide superior cutting performance and durability. Featuring precision-drilled holes for secure mounting, these parts are compatible with standard bulldozer equipment configurations.

Technical Details

Material Options

- Boron Steel (30MnB)
- Manganese Steel (16Mn)

Part Numbers	1U1545, 1U1546
Application	Bulldozer machinery
