

# Dozer End Bit 9W9193 for Caterpillar Bulldozers

This dozer end bit is a replacement part for Caterpillar bulldozers, specifically the 9W9193 model. It provides a high-quality cutting edge for earthmoving applications.

## Product Overview

### High-Performance Dozer End Bit

This high-carbon (HC) dozer end bit is engineered as a robust replacement part for heavy-duty bulldozers. Manufactured from heat-treated Boron steel (30MnB), it offers exceptional durability and wear resistance in demanding ground-engaging applications. Designed for precise fitment, this component ensures optimal cutting and grading efficiency for construction and earthmoving projects.

## Technical Specifications

Precision-cast high-carbon steel end bit designed for durability in heavy construction environments.

<b>Part Number</b>	9W9193
<b>Material</b>	Heat treated Boron steel (30MnB)
<b>Hardness</b>	HB400-450

## Dimensions & Weight

Dimensional diagram showing length, width, and thickness measurements for the end bit.

### Physical Dimensions

Measurement	Value	Unit
Length (A)	701	mm
Width (B)	330	mm
Thickness (C)	50	mm

Weight	86.9 Kg
--------	---------

### Installation Details

Bolt Type	1" plow bolt
Bolt Quantity	7

### Compatibility

Compatible Models	9SU
