Product Overview

Comprehensive Drain Cleaning Solution

This professional-grade drain cleaning cutter and drill set provides a versatile range of heads designed for effective blockage removal and maintenance of complex pipeline systems. Featuring high-intensity tools compatible with 16mm drain cleaning cables, this set enables plumbers to handle everything from initial blockage detection to the removal of stubborn debris, chemical deposits, and root intrusions. Each component is engineered for specific drainage challenges, ensuring optimal performance in demanding maintenance environments.

Technical Specifications

Included Cutter and Drill Heads

Tool Type	Length (mm)
Straight Auger	135
Bulb Auger	100
Flexible Bulb Auger	130
Retrieving Auger	135
4-Blade Cutter	35
Grease Cutter	37
Sawtooth Cutter	28
C-Cutter	40

Compatible Cable Diameter | 16 mm

Application Guide

Tool Applications

- Straight Auger: Detecting and removing initial blockages
- Bulb Auger: Navigating complex structures and soft shaft pipelines
- Flexible Bulb Auger: Cleaning pipelines difficult to navigate
- Retrieving Auger: Extracting lost shafts or clearing woven material blockages
- 4-Blade Cutter: High-intensity removal of hard deposits
- Sawtooth Cutter: Removing roots, branches, and debris
- Grease Cutter: Clearing grease and inner surface deposits
- C-Cutter: Cleaning soap and grease from pipeline walls

Key Features

High Intensity, Corrosion Resistant, Professional Grade, Multi-functional
