Product Overview

High-Performance Drainage Solution

This durable drainage grating is engineered for efficient water management and robust load-bearing capacity. Constructed from high-quality cast iron with a corrosion-resistant black powder coat finish, it is built to withstand harsh environmental conditions. The slotted design ensures optimal water flow and debris filtration, making it an ideal choice for sidewalks, driveways, and industrial areas.

Technical Specifications

Material	Cast Iron
Finish	Black Powder Coat
Dimensions	12x12 inches
Weight	15 lbs

Application & Features

Key Features

- Corrosion-resistant finish
- Optimized slotted design for water flow
- High load-bearing capacity
- Square frame for stability

Suitable Applications

Sidewalks, Driveways, Industrial Areas, Commercial Use, Residential Use
