Overview

User-friendly design suitable for both professionals and beginners.

Precision Drill Bit Sharpening

This compact and efficient grinding machine is designed to provide rapid, accurate sharpening for drill bits ranging from 3mm to 13mm. Engineered for ease of use, it allows operators to achieve professional-grade results in approximately 10 seconds, even without extensive grinding experience. Its robust construction and powerful motor ensure consistent performance, making it an ideal maintenance solution for workshops, manufacturing facilities, and personal tool collections.
