

Drilled Hex Head Bolt

This hex head bolt is designed with a drilled hole in the head for locking with safety wire or cotter pins. It is made from durable steel and finished in black.

Product Overview

High-Strength Drilled Hex Head Bolt

This high-strength hex head bolt features a specialized drilled hole through the head, designed specifically for applications requiring safety wire or cotter pin locking. This mechanism effectively prevents loosening caused by intense vibration or rotation, making it ideal for critical machinery, automotive, and industrial assemblies. Manufactured from durable steel with a variety of protective finishes, these bolts are engineered to meet international standards for reliability and secure fastening.

Technical Standards

Compliance Types

- DIN
- ISO
- ANSI
- ASME
- BS
- AS
- JIS

Supported Standards

DIN931, DIN933, DIN960, DIN961, DIN934, DIN125, DIN127, DIN6914, DIN6915, DIN6916, DIN7990, ISO4014, ISO4017, ASTM A325, ASTM A490, ASTM A563, ASTM F436, ASTM A193 B7, ASTM A194 2H

Material & Finish

Material

Carbon Steel • Alloy Steel

Finish Options

- Plain
- Black Oxidized
- Zinc Plated (white, yellow, blue, color)
- Hot Dip Galvanized
- Dacromet

Strength Grades

8.8, 10.9, 12.9, gr5, gr8

Logistics & Supply

Monthly Supply Ability

800 tons

Monthly Capacity

Delivery Lead Time

7-30 days

Packaging Details

25kg per carton, 36 cartons packed in a pallet or according to your demands

Application

Primary Applications

- Building Construction
- Instrumentation
- Automotive
- Furniture
