

Drip Coffee Maker and Electric Kettle Combination Appliance

This compact appliance combines a drip coffee maker and an electric kettle. It is designed for brewing coffee and boiling water efficiently, saving space on the countertop.

Product Overview

Dual-Function Convenience

This versatile 2-in-1 kitchen appliance combines a high-capacity drip coffee maker with a rapid-boil electric kettle on a single space-saving base. Designed for modern kitchens and office environments, it streamlines hot beverage preparation while maximizing counter efficiency. With user-friendly features like clear water level indicators and an integrated safety shut-off system, it offers a reliable and easy-to-maintain solution for daily brewing needs.
