

# Drip Irrigation Tape Machine with Single Blade Labyrinth

This high-speed machine produces single-blade labyrinth-type drip irrigation tape. It increases production speed while maintaining power consumption, significantly reducing production costs.

## Product Overview

### High-Efficiency Irrigation Tape Production

This high-speed, single-blade labyrinth drip irrigation tape machine represents the latest advancement in agricultural manufacturing technology. Engineered for efficiency, it significantly increases production speeds while maintaining stable power consumption, resulting in substantial cost savings. The system integrates raw material feeding, precision extrusion, and labyrinth formation to deliver consistent, high-quality irrigation tape suitable for large-scale agricultural operations.

## Technical Specifications

### Key Performance Metrics

<b>70 m/min</b> Max Production Speed	<b>55 kg/h</b> Max Extruding Capacity	<b>44 kw</b> Installation Power
---	--	------------------------------------

### Dimensions and Weight

Specification	Value
Weight	2200 kg
Overall Dimensions (LxWxH)	13.3m x 3.1m x 3.3m

### Filter Type

Durable Filter (Patent)

Model Number	SJDYG-60
Tape Diameter Range	12-20mm
