

Drop Forged Steel Pliers

These pliers are made from drop-forged carbon steel with Cr-V and Cr-Ni steel construction. The surface has a fine finish with black-plating, nickel-iron plating, black-nickel, and pearl-nickel.

Product Overview

Professional Grade Effort-Saving Pliers

These drop-forged steel pliers are engineered for high-performance industrial applications. Constructed from premium carbon steel, Cr-V, and Cr-Ni steel, they offer exceptional durability and strength. Available in both Linesman and Long Nose configurations, these tools feature specialized surface treatments to resist corrosion and wear, making them an ideal choice for professional-grade tasks.
